

# VIRTUAL Summer 2021

## Strengths Program

focusing on college & career readiness

### Innovative & interactive curriculum for alternative learners

- Program participants complete the program with the tools, strategies and communication skills for navigating remote learnings and the virtual workspace.
- Participants also learn how to search for jobs, network and interview.
- Participants leave the program with a resume, cover letter and LinkedIn profile.
- Most importantly, program participants learn how to effectively disclose their disability or learning style and ask for supports needed to be successful in school and in the workplace.

All curriculum is delivered in an interactive and innovative format that implements strategies for neurodiverse learners with the integration of the arts, collaborative projects and the inclusion of mindfulness and yoga techniques.
